

## Tuesday

An activity to use each day – Money and Maths

**How Much is in Milo's Money box? – 3 is the magic number this time – Milo has 3 coins.....**

Here are some challenging prompts to get you thinking about amounts of money.

How much money could he have?

What amounts less than 20p could you make with 3 coins?

What is the least amount of money he could have?

There are 3 coins in Milo's Money box..

What if he puts two more coins in, how much could he have now?

What is the biggest amount of money he could have?

What amounts can't you make with 3 coins?

What coins would make 17p?

What 5 coins would be in his money box if he had a total of 20p in there?
